## Part 1: Hydrogen production in Australia

**Q1.1. First, we would like to hear your understanding of hydrogen and hydrogen energy. Please indicate how many of the following statements you believe to be correct.**

1. Hydrogen is the lightest of all gases.
2. Hydrogen can be found in water.
3. Hydrogen is not a greenhouse gas.
4. Hydrogen is odorless.
5. Hydrogen is non-toxic.
6. Hydrogen may be naturally produced underground
7. Hydrogen can be made from fossil fuels.
8. Hydrogen can be stored as a gas or in liquid form.
9. Hydrogen can be used to generate electricity**.**
10. Hydrogen is used in the production of ammonia for fertilizers.

**Your response: _____** statements are correct.

**Now, please read the following description about hydrogen energy.**

Hydrogen is the most common chemical element in the universe. It can be used to produce energy for various applications, including transport fuel, heating, electricity storage, and a raw input to industrial processes.

Hydrogen energy can be stored as a gas and transported via pipelines. It can also be converted into liquid form or utilised to produce materials, which allows it to be transported by trucks or ships. This means that hydrogen can be exported overseas, making it a tradable energy commodity.

Hydrogen can be produced from a variety of domestic resources, such as natural gas and renewable energy sources like solar and wind power.

Imagine a new hydrogen production project is being proposed to produce hydrogen fuel in *STATE*. In this project, hydrogen fuel will be produced by separating hydrogen from water through electrolysis using renewable energy, such as wind, solar or hydro power. When it is produced using renewable energy or processes, hydrogen is an emission free fuel, meaning that it does not release extra $CO_2$ into the air.

Now, please consider a scenario where an additional charge will be added to your electricity bill to fund this project.

**Q1.2. Approximately, how much does your household typically pay for electricity each month?**

- $0 per month
- $1 to $49 per month
- $50 to $99 per month
- $100 to $149 per month
- $150 to $199 per month
- $200 to $249 per month
- $250 to $299 per month
- $300 to $349 per month
- $350 to $399 per month
- $400 to $449 per month
- $450 to $499 per month
- More than $500 per month (please enter the amount $_____ )
- I don't know

**Q1.3. Suppose your household will need to pay an additional $x per month on the electricity bill for the next 5 years to support this hydrogen production project. Considering that your household has many calls on the income, would you be willing to pay this extra amount each month for the next 5 years to support the project?**

- Yes, I would be willing to pay extra $x per month.
- No, I would not be willing to pay extra $x per month.

**Q1.4. Would you be willing to pay extra $y per month on the electricity bill for the next 5 years to support the project?**

- Yes, I would be willing to pay extra $y per month.
- No, I would not be willing to pay extra $y per month.

**Q1.5. Please indicate how certain you are of your answers about whether you are willing to pay extra monthly electricity bill.**

- Absolutely certain
- Somewhat certain
- Not very certain
- Not certain at all

**Q1.6. You answered 'no' to both questions about having to pay more for your electricity bill to support the hydrogen production project. Could you explain your reason for this?**

**Part 2: Your views on climate change and electricity production**

**Q2.1. Please select all the methods of electricity generation listed below that you believe emit carbon dioxide when generating electricity. You may choose more than one option.**

1. Coal-fired power
2. Oil-fired power
3. Natural gas-fired power
4. Nuclear power
5. Hydraulic power
6. Biomass power
7. Solar power
8. Solar thermal power
9. Wind power
10. Geothermal power
11. Wave power

☐ None of the methods emit carbon dioxide ($CO_2$).

**Q2.2 To what extent do you agree with the following statements about climate change?**

| | Strongly Agree | Agree | Disagree | Strongly Disagree | I don't know |
|---|---|---|---|---|---|
| Climate changing is happening. | | | | | |
| Human activities are the main cause of climate change. | | | | | |
| Climate change adversely affects human health. | | | | | |
| Climate change has negative economic effects. | | | | | |

**Q2.3 To what extent do you agree with the following statements about electricity and energy?**

| | Strongly Agree | Agree | Disagree | Strongly Disagree | I don't know |
|---|---|---|---|---|---|
| Electricity shortages will occur in the near future due to rising demand for electricity and increasing fossil fuel prices. | | | | | |
| The development and supply of cheap and abundant energy in the future are important. | | | | | |
| The government should allocate more funds to the development of new energy sources that do not emit carbon dioxide. | | | | | |
| Electricity prices will rise due to an increase in the supply of electricity from renewable energy sources. | | | | | |

| | | | | | |
|---|---|---|---|---|---|
| Renewable energy production will mitigate climate change. | | | | | |
| The production of renewable energy will increase employment in the area where it is produced. | | | | | |
| The construction of facilities for renewable energy production will cause new environmental problems such as noise. | | | | | |
| Renewable energy production will have a positive impact on other regional and foreign economies. | | | | | |

## Part 3: General Information

Lastly, we would like to ask you a few questions about you.

**Q3.1. What is your age?** _____ years

**Q3.2. How do you describe your gender?**

- ☐ Male
- ☐ Female
- ☐ Non-binary
- ☐ I use a different term (please specify) _____
- ☐ Prefer not to answer

**Q3.3. What is the level of the highest qualification you have completed?**

- ☐ Primary School
- ☐ Secondary School
- ☐ Certificate – level I or level II
- ☐ Certificate – level III or level IV
- ☐ Advanced Certificate, Associate Diploma, Diploma or Advanced Diploma
- ☐ Associate Degree
- ☐ Bachelor Degree or Bachelor Degree with Honours
- ☐ Graduate Certificate or Graduate Diploma
- ☐ Postgraduate Degree

**Q3.4. Including yourself, how many adults and children usually resid in the same dwelling?**

_____ persons

**Q3.5. What is the postcode of your current place of residence?** ☐☐☐☐

**Q3.6 How long have you resided in the postcode area you indicated in Q3.5?**

_____Years

- ☐ Less than one year

**Q3.7. What would you say the approximate combined income of everyone in this household, before taxes and other deductions are taken out, during the last financial year (July 2023 to June 2024)? Please include income from all sources, including wages, investments, and government pensions and benefits.**

- ☐ Negative or Zero Income
- ☐ $1 - $19,999 per year ($1 - $379 per week)
- ☐ $20,000 - $29,999 per year ($380 - $579 per week)
- ☐ $30,000 - $39,999 per year ($580 - $769 per week)
- ☐ $40,000 - $49,999 per year ($770 - $959 per week)
- ☐ $50,000 - $59,999 per year ($960 - $1149 per week)
- ☐ $60,000 - $79,999 per year ($1150 - $1529 per week)
- ☐ $80,000 - $99,999 per year ($1530 - $1919 per week)
- ☐ $100,000 - $124,999 per year ($1920 - $2399 per week)
- ☐ $125,000 - $149,999 per year ($2400 - $2879 per week)
- ☐ $150,000 - $199,999 per year ($2880 - $3839 per week)
- ☐ $200,000 - $249,999 per year ($3840 - $4799 per week)
- ☐ $250,000 - $299,999 per year ($4800 - $5759 per week)
- ☐ $300,000 or more per year ($5760 or more per week)
- ☐ I don’t know
- ☐ I don’t want to answer
- ☐ Other (Please enter the amount) _____

**Q3.8a. Are you….?**

- ☐ Working in paid employment (full-time)
- ☐ Working in paid employment (part-time)
- ☐ Working in paid employment (casual or contract)
- ☐ Self-employed
- ☐ A stay-at-home mother / father / partner or carer
- ☐ A student
- ☐ Unemployed – looking for work
- ☐ Unemployed – not looking for work
- ☐ Retired
- ☐ Other (please specify) _____

**Q3.8. Which industry best describes your occupation?**

- Agriculture, forestry and fishing
- Mining
- Manufacturing
- Electricity, gas, water and waste services
- Construction
- Wholesale trade
- Retail trade
- Accommodation and food services
- Transport, postal and warehousing
- Information media and telecommunications
- Auxiliary finance and insurance services
- Rental, hiring and real estate services
- Professional, scientific and technical services
- Administrative and support services
- Public administration and safety
- Education and training
- Health care and social assistance
- Arts and recreation services
- Other services

Thank you for your participation. Please let us know your overall opinion on this survey. You may select more than one option.

- ☐ Covers an important topic
- ☐ Interesting
- ☐ Informative
- ☐ Too complicated
- ☐ Too long
- ☐ Other (please specify) _____

If you have any comments about the questionnaire or the survey, feel free to write them in the following box.
